

Restarting the Docking Station

Check the USB-C Cable

- If the LED light on the USB-C cable is not illuminated, the docking station does not receive

power.

Restart the Docking Station

- If the LED light is off, unplug the power cable to your docking station (shown below) and immediately plug it back in.
- Please allow 10 seconds for the docking station to power on.

- Should your monitors and other peripherals continue to experience power issues, please contact the IT Helpdesk!
